TOPIC	John Albert	Kenan Ozekin	Grace Jang	Mary Smith	Jian Zhang	Jeff Moeller	Stephanie Fevig	Lola Olabode	Walter Graf	Harry Zhang	Julie Minton	Jonathan Cuppett	Ashwin Dhanasekar	Erin Partlan	Erin Swanson	Fidan Karimova	Christobel Ferguson
Advanced Treatment: Drinking Water and Water Reuse Treatment											x			x			
Asset Management					x		x		x								
Biofilms / Biofiltration	x	x	x														x
Biosolids							x	x					x				
Climate Change: Climate Impacts		x			x					x				x	x		
Climate Change: GHG/Carbon Emissions & Management													x		x		
Collection Systems/CSOs/SSOs									x	x							
Compounds of Emerging Concern				x				x									
Condition Assessment					x				x								
Customer Relations & Communications									x								
Cyanobacteria & Cyanotoxins																	
Decentralized Systems						x							x				x
Desalination											x			x			
Digestion					x												
Disinfection		x	x	x			x	x									
Disinfection Byproducts		x															
Drinking Water Distribution Systems			x	x													x
Energy Optimization						x							x			x	
Finance and Economics									x								
Groundwater													x				x
Innovation						x								x		x	x
Integrated Water Management & Planning						x				x							x
Intelligent Water Systems					x	x			x				x	x		x	
Lead & Copper													x
