Advanced Treatment: Drinking Water and Water Reuse Treatment							X				X						
Asset Management					X									X			X
Biofilms & Biofiltration	X			X		X				X							
Biosolids			X		X				X								
Climate Change: Climate Impacts			X							X				X	X	X	X
Climate Change: GHG/Carbon Emissions & Management			X												X		
Collection Systems/CSOs/SSOs																X	
Compounds of Emerging Concern									X				X				
Condition Assessment																	X
Customer Relations & Communications															X		
Cyanobacteria & Cyanotoxins															X		
Decentralized Systems				X				X								X	
Desalination							X				X						
Digestion					X												
Disinfection					X	X			X	X			X				
Disinfection Byproducts										X				X			
Drinking Water Distribution Systems				X		X							X				
Energy Optimization			X					X									
Finance and Economics																	
Groundwater				X										X		X	
Innovation				X				X			X						
Integrated Water Management & Planning				X				X								X	
Intelligent Water Systems			X					X			X						X
Lead & Copper		X															
Membrane Filtration											X						
Microbes & Pathogens	X			X		X			X								
Microplastics			X						X								
Nutrients					X			X	X							X	
Per- and Polyfluoroalkyl Substances (PFAS)										X			X				
Premise Plumbing						X											
Public Health				X					X								
Rates, Revenue, & Affordability		X															
Resilience															X	X	X
Resource Recovery			X		X			X									
Security and Emergency Management									X				X				
Sensors & Monitoring			X														
Source Water Protection				X												X	
Stormwater (incl. Green Infrastructure & Flood Management)								X						X		X	
Taste and Odor Issues (Drinking Water)															X		
Utility Management		X															
Wastewater Treatment			X		X			X	X								
Water Demand & Forecasting													X	X
