Checklist for WRF Final Reports and Product

Please visit the Project Report Guidelines for information on preparing a report, the Research Report Template, and other essential information.

Use this checklist to ensure your final report package is complete.
WRF will not accept an incomplete package.
This checklist is meant to be a helpful guide; it does not need to be submitted along with your report.

Ensure the final report includes these sections (in order of appearance):

- Title Page
- About WRF, Disclaimer, and Copyright Page
- Acknowledgments Page
- Table of Contents
- List of Tables
- List of Figures
- List of Acronyms and Abbreviations (Recommended)
- Executive Summary
- Main Body of Report
- Ensure all in-text citations have a corresponding reference list entry.
  - Double check your citation format: for sources with three or more authors, use the first author’s last name followed by et al.; for sources with two or fewer authors, use all author last names. (Examples: WRF 2018, Greene and Doe 2015, Smith et al. 2016)

  - Include call outs in the text for all tables/figures in the main body of the report. (Example: “. . . as shown in Figure 1-1.”)

  - Replace any URLs in the report body with in-text citations and reference listings.

  - Use third person in the report body with in-text citations and reference listings.

- Appendices (if applicable)
- Reference List
  - Ensure all reference list entries have an in-text citation in the main body of the report.
  - Ensure that all reference list entries are complete, containing information on the authors, publication year, title, and publisher.
  - For any references that could be cited the same way, use letters after the dates to distinguish between them in the reference list and in-text citations. (Example: Smith et al. 2015a vs. Smith et al. 2015b)

Copyright Permission
- Ensure ALL figures and tables are included on the Copyright Permission form (including any graphics from the Executive Summary and Appendices).
- For any figures or tables taken directly from or adapted from other sources, obtain reprint permission from the original publisher and submit correspondence with the final report.

Final Review
- Read through the report and fix any errors. The WRF final review conducts a spell check but does not manually read through each page.
